CLOSING

Fully automatic packaging line with a Kwik Lok closing system. This machine is possible to combine with many different bread slicers as a semi-automatic line or to combine with a bread slicer and bagloader for a fully automatic line. The conveyor can be manufactured in many different lengths.

# Packaging Line HTA-KL

### Optional features:

- Standard version includes a Kwik Lok closing machine 872 XLS idle rim
- Bagtensioner before closing
- Holly Bagblower type HBB for manual packing of the products
- Extra 500 mm conveyor for the installation of a labelling machine
- Outfeed conveyor belt instead of passive rollers
- Stainless steel covers and frame
- Date coder for printing on the closure.
