Packaging

Slicing

Closing

Serveral

Special

Semi-automatic packaging machine for easy bag opening and loading of bread and buns into pre made wicket bag. The input guides are easy to adjust for different products and ensures that the bag retains its shape. This machine can be combined with a semi automatic slice and packaging line and be integrated in the outfeed table of the bread slicer or this machine can be combined with a fully-automatic line for small amounts of products.

The machine is standard delivered as stainless steel version. If required, the Bagblower can also be supplied with a table so that the correct working height can be obtained. Various versions are available, the machine can be used with pre-made plastic or with paper bags on request.
