

Closing conveyor CL-FLOW

Closing

Slicing

Packaging

Serveral

Special

Automatic in-line clipband closing machine for closing products like tray packs, baguettes, whole bread coming from a Flowpack line and other products.

The products are transported on conveyor belts, both adjustable speed, to and from the closing section. This inline process is self-controlled and doesn't need to be synchronized to the packaging machine. The simplicity of design guarantees a minimum of maintenance and loss of operation.

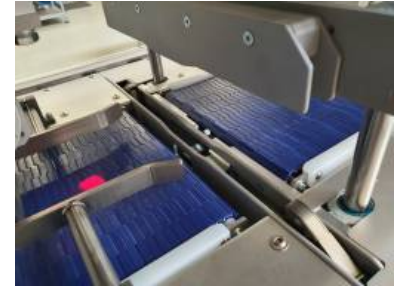

- HOBA -   
Customised slicing, packaging and closing machines

Closing conveyor CL-FLOW

Features

- ▶ Holly Closing machine type CL for closing with clipband
