

Closing conveyor HPL-20

Closing

Slicing

Packaging

Serveral

Special

Semi-automatic packaging line with a clipband closing system. To combine with many different bread slicers for sliced bread or to combine with a stand-alone bagblower for easy opening and loading of unsliced bread, buns and rolls into pre made wicket bags.

The Bagblower ensures that the bags are opened, so that products can be packed quickly, and then closed on the intermittent conveyor with a clipband closure. This high quality machine with its hardened components and grinded shafts, is also suitable for closing large or paper bags. The machine can be combined with several slicers and is a compact and solid slice- and packing solution for the semi-industrial bakery.

-HOB-
Customised slicing, packaging and closing machines

Closing conveyor HPL-20

Features

- ▶ Holly Closing machine type CL for closing with clipband
- ▶ Vacuum pump to remove excess air from the bag.
- ▶ Holly Bagtensioner type HBT to smooth the bag before closing
- ▶ Transportation of the products with pushers on a plastic plate
- ▶ Standard outfeed free roller conveyor, total length 900 mm
- ▶ Wheels under the machine, including brake

	various range of unsliced and sliced bread, as well as buns and rolls, packed in a plastic bag (paper on request)
	length : 140 – 370 mm width : 80 – 240 mm height : 70 – 170 mm
