

Closing conveyor HTA-KL

Closing

Slicing

Packaging

Sereral

Special

Fully-automatic packaging line with a tab lock closing system. This machine is possible to combine with many different bread slicers as a semi-automatic line or to combine with a bread slicer and Bagloader for a fully-automatic line. This closing machine is manufactured for an company assured approach in the bakery.

This system is completely constructed to the customer requirements from a basic design and many variations can therefore be delivered. Possible to close with a single standard tab lock closure or with a closure with a label attached for a nice presentation of the product.
