Special

Fully-automatic bun slice and packaging line for baguette, hamburger buns, cakes and rolls in a plastic film of a roll.

The bun slicer HSC-BL is developed to slice the buns and rolls with a band blade totally through in two or three layers. The bun slicer HSC is developed to slice hinge or butterfly cut with a circle blade.

The pillow packing machine PP to wrap the buns in a centre folded film sealed on 3 sides. Depending on the customer request organizing and counting of the buns before feeding to the packaging machine can be developed.

-HOB-
Customised slicing, packaging and closing machines

Fully-automatic bun line slicing, packaging and closing
