Closing

Severel

Special

Fully-automatic packing machine for loading flatbread, pita, tortilla or naan automatically into pre-made wicket bags. The machine has been developed to high quality engineering standards using our knowledge of the national and international bakery markets.

The principle for the machine is standard, but the version can be adapted with the optional features. The wrapper can be connected with any type of closing machine to suit the customers particular request, including: clipband, tab lock, twist tie and tape seal. Heat sealing units can also be installed on the conveyors depending on material of bags and type of closures.

Wrap packer HWP

Features
